

Continuous Cold Pressed Terminals Nylon Insulated Cord End Terminals

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: TLC
- Certification: UL, CE
- Model Number: RNB-PT
- Minimum Order Quantity: 5000
- Price: USD 0.02-8.99 per pieces
- Packaging Details: Carton
- Delivery Time: 1-4 weeks
- Payment Terms: T/T
- Supply Ability: 10KK pcs per month

Product Specification

- Terminal Body: Copper
- Insulation: Nylon
- Temperature: 105
- Plating: Tin
- Highlight: **Continuous Cold Pressed Ring Cable Lugs 105C**
, Insulated Cord End Terminals 105C,
Nylon Insulated Cord End Terminals

Product Description

A non-insulated terminal is an electrical connector used to connect or secure a wire, which is usually made of metal material and does not have an insulating function. Non-insulated terminals are widely used in electrical and electronic equipment, automotive industry, home appliances and other fields.

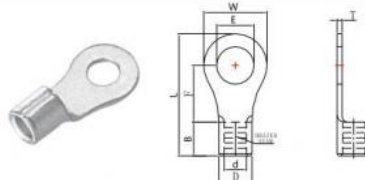

Non-insulated terminals are usually made of conductive materials (such as copper, aluminum, etc.) and have good conductivity properties to achieve reliable electrical connections. They come in a variety of shapes and sizes, including round, flat, U-shaped, F-shaped, etc., to suit different connection needs. Non-insulated terminals can be bolted, crimped, or welded to the wire.

Non-Insulated with Brazed Seam

RING TERMINALS
