

## Tin Plated Mechanical Cable Lugs For Electrical Connections 16-95mm<sup>2</sup> Copper Terminals

Our Product Introduction

for more products please visit us on [cableslugs.com](http://cableslugs.com)

### Basic Information

- Place of Origin: China
- Brand Name: TLC
- Model Number: SC
- Minimum Order Quantity: 1000pcs
- Price: USD
- Packaging Details: Carton package
- Delivery Time: 5-30 Days
- Payment Terms: T/T
- Supply Ability: 1 KK pcs per month

### Product Specification

- Application: Electrical Connections
- Type: Crimped
- Color: Silver
- Material: Copper
- Product Name: Mechanical Cable Lugs
- Temperature Rating: High
- Packaging: Bag, Box, Carton
- Surface Treatment: Tin Plated
- Highlight: 95mm<sup>2</sup> copper terminals tlc,  
16mm<sup>2</sup> Copper Terminals tlc,  
tin plated copper lugs 16mm<sup>2</sup> tlc

## Non- Insulated - Copper Lugs

## Product Description:

## The importance of cable lugs

Cable lugs are integral components for establishing a strong and stable electrical connection. This is essential for effectively transferring electrical power or signals between devices. If not properly installed, cable and terminal lugs can cause loose connections. This can result in poor performance, overheating, or complete electrical failures.

The successful operation of electrical systems require that cable lugs are properly installed. This guarantees that the connection between wires and electrical devices or equipment is secure and reliable. Their installation also ensures optimal electrical performance and increased safety.

## Applications:

TLC's SC series of mechanical cable lugs offer a reliable and dependable solution for making electrical connections. Made from high-grade copper, they have a high temperature rating and are able to withstand extreme conditions. The silver color of the lugs ensures that they blend in with their surrounding environment. The lugs are easy to install and can provide a secure connection for a wide range of applications. The lugs are also highly durable and have a very high current rating, allowing them to handle large amounts of electricity.

With their excellent performance and long-lasting reliability, these mechanical cable lugs from TLC are the perfect choice for any electrical connections.

These mechanical cable lugs are ideal for a variety of applications, such as industrial, commercial, and residential. They are perfect for wiring, connecting, and terminating copper cables. They can also be used as terminal lugs for a wide variety of electrical connections. With their superior performance and long-lasting reliability, these lugs are perfect for any electrical application. Whether you need to make a connection in a factory or a home, these lugs are the perfect choice.

### Customization:

TLC SC Custom Mechanical Cable Lugs

**Brand Name:** TLC

**Model Number:** SC

**Place of Origin:** China

**Color:** Silver

**Packaging:** Bag, Box, Carton

**Surface Treatment:** Tin Plated

**Material:** Copper

**Application:** Electrical Connections

**Product Description:**

TLC SC Custom Mechanical Cable Lugs are widely used for electrical connections, such as terminal lugs, cable lugs, tube lugs, and crimping lugs.

### Support and Services:

Mechanical Cable Lugs Technical Support & Service

We offer a wide range of technical support and services for our Mechanical Cable Lugs products. Our team of experienced professionals are available to answer any questions you may have and provide assistance with the installation and maintenance of our products. We provide on-site training, product maintenance and repair services, as well as spare parts and accessories.

Our team of experienced technicians is available to provide you with advice and assistance in all aspects of product selection, installation, and maintenance. We can provide on-site technical support and troubleshooting services, as well as repair and maintenance services. We also offer spare parts and accessories for our products.

We take pride in offering quality products and services to meet the needs of our customers. Our team of experts are dedicated to providing the best possible service and support for our Mechanical Cable Lugs products. If you have any questions or need assistance, please don't hesitate to contact us.

### Packing and Shipping:

Packaging and Shipping of Mechanical Cable Lugs

Mechanical cable lugs are packaged in a variety of ways depending on the size and quantity of the order. Smaller orders of lugs are typically packaged in boxes of various sizes. Bulk orders will be packaged in larger boxes or on pallets for easy transportation.

The shipping method for mechanical cable lugs depends on the size of the order and the destination. Smaller orders are typically shipped via ground or air freight, while larger orders are often shipped via ocean freight. All packages are tracked and insured to ensure timely arrival.

### FAQ:

**Q:** What is the brand name of the mechanical cable lugs?

**A:** The brand name of the mechanical cable lugs is TLC.

**Q:** What is the model number of the mechanical cable lugs?

**A:** The model number of the mechanical cable lugs is SC.

**Q:** Where is the mechanical cable lugs manufactured?

**A:** The mechanical cable lugs are manufactured in China.

**Q:** What features do the mechanical cable lugs have?

**A:** The mechanical cable lugs feature high-strength, corrosion-resistant and durable construction.

**Q:** What is the application of the mechanical cable lugs?

**A:** The mechanical cable lugs are used to connect cables to electrical appliances.
