Product Description:

The combination of lugs and terminals ensures a strong and stable electrical connection, which is essential for the efficient transfer of electrical power or signals between devices. If this connection is not properly installed, it can lead to poor performance, overheating, or even electrical failures.

45D cable lugs terminals play a huge role in electrical systems; they provide secure and reliable connections between wires or cables and electrical devices or equipment. To ensure optimal electrical performance and safety, it is crucial to properly install these lugs and terminals.

Features:

Product Name: 45 Degree Cable Lug

Color: Silver

Shape: Cable Lug

Material: Copper

Size: 45 Degree

Highlights: Copper tube lug, Copper tube lug 45D, Copper tube lug 45D silver

Applications:

The **45 Degree Cable Lug** is a high-quality product from **TLC** with model number **TLK Series, SC Series, T Series**. It is made of copper material with a silver color, and the size of the lug is 45 degree. It is certified by **UL, CUL, CE** and the minimum order quantity is **1000 pcs**. The price of the product is **USD** and it is packed in a carton package. The delivery time is **5-30 days** and the payment terms are **T/T**. The **45 Degree Cable Lug** has a maximum supply ability of **1KK pcs per month**, and it is suitable for wire size of **5-95mm²**. It is often used for **45D wire inlet lugs, tube cable lug 45D, 45D wire inlet lugs**.

Customization:
