

Single Pole Connectors Grounding Type BMC1s Series Housing 10 **Ampers**

Basic Information

• Place of Origin: China TLC • Brand Name: · Certification: CE • Model Number: G, BMC 500

• Minimum Order Quantity:

USD • Price: · Packaging Details: Carton

• Delivery Time: 5-30 working days

• Payment Terms: T/T

· Supply Ability: 100K pcs per month

Product Specification

· Connector Gender: Male/Female Material: UL94 V-0

• Current Rating: 10A

Wire-to-Wire • Connector Type: • Cable Specification: 0.3mm2-10mm2

• Insulation Resistance: $1000M\Omega$ · Contact Resistance: $20 \text{m}\Omega$

• Product Name: **Battery Modular Connectors**

Highlight: Battery Modular Connectors 10A,

> **Battery Modular Connectors 10 Ampers,** 10A Single Pole Connectors Grounding Type

BMC1S Series

FIG-2

SINGLE POLE CONNECTORS Grounding type

Specifications

Operating Temperature Range -20℃ to 105℃ Flammability of Housing UL 94 V-0

Contact Retention Force Max, Wire Insulation Force Rated Current

10 Amperes 600 Volts AC & DC

3.8 mm

25 Lbs Rated Voltage Dielectric Voltage Withstand 2200 Volts DC

Housing—10 Amperes

Material

Contact — 10 Amperes

Material Contact Brass Plating: Tin

ITEM NO.	RATED CURRENT	TYPE	WIRE RANGE mm (A.W.G.)	DIMENSION:mm(inch)				Q'TY
				н	w	ii	L2	(ROLL)

S1331-FG2ST	10 Amperes	Socket	1.5-2.5 (16-14)	22.4 (.882)	3.3 (.130)	2.8 (.110)	16.5 (.650)	4,000

198 Battery Modular Connectors

Product Description:

Introducing our top-quality Battery Modular Connectors

At RS Connectors, we are proud to offer high-grade Battery Modular Connectors, designed to meet the needs of a variety of industries. We understand the importance of reliable and efficient connectivity for battery systems, which is why our products are guaranteed to meet all of your requirements.

As a leading supplier in the market, we strive to provide our customers with outstanding products of the highest quality. Our connectors feature outstanding precision and sophisticated mechanism, ensuring perfect installation and reliable performance even in the most demanding conditions.

We are committed to providing our customers with safe and dependable connectors that match their performance needs and expectations - and our Battery Modular Connectors are no exception. Enhanced with safety features, our connectors guarantee fast, reliable, and safe connection in any situation.

Features:

At our company, we take pride in offering high-quality products. Our Battery Modular Connectors are no exception. Using premium materials, we guarantee that these connectors are more durable and can guarantee long-lasting performance.

Furthermore, we ensure that each connector is made with precise engineering and strict quality control measures. These features work together to provide a secure and stable connection, minimizing the risk of power loss or interruptions.

You can trust that our Battery Modular Connectors will serve as reliable power sources to you.

Technical Parameters:

Attributes Specifications

Connector Gender	Male/Female
Terminal Type	Crimp/Solder
Connector Type	Wire-to-Wire
Application	Battery
Material	PA66+GF
Connector Style	Modular
Insulation Resistance	$1000 \text{M}\Omega$
Current Rating	2A-50A
Cable Specification	0.3mm2-10mm2
Contact Resistance	$20m\Omega$
Series	BMC1 SERIES

Applications:

In an ever-changing world, versatility is key. That is why we have designed our connectors to be modular - to easily adapt and customize to any application you are using.

For battery-powered equipment, our connectors are especially suited to your needs. From electric vehicles to renewable energy systems, our connectors are flexible and easily customized to meet your needs.

With its reliable performance and ability to adapt to various electrical systems, our connectors provide you a more cohesive solution to any project.

Customization:

Battery Modular Connectors by TLC

Product Information:

Brand Name: TLC

Model Number: G, BMC

Place of Origin: China

Certification: CE

Minimum Order Quantity: 500

Price: USD

Packaging Details: Carton
Delivery Time: 5-30 working days

 $\textbf{Payment Terms:} \ T/T$

Supply Ability: 100 K pcs per month Contact Resistance: $20 \text{m}\Omega$ Connector Style: Modular

Cable Specification: 0.3mm2-10mm2

Material: PA66+GF

Connector Gender: Male/Female

TLC's Battery Modular Connectors (BMC1 SERIES) are perfect for your applications. With a minimum order quantity of 500, you get the best price at USD per piece. Our connectors are made of PA66+GF and feature a contact resistance of $20m\Omega$. We offer a variety of cable specifications, from 0.3mm2-10mm2. We provide packaging in carton and delivery within 5-30 working days. Payment terms are T/T and our supply ability is 100K pcs per month.

Support and Services:

Battery Modular Connectors Technical Support and Services

The technical support and services for Battery Modular Connectors are available and provided by our experienced team of engineers and technicians. Our team is ready to assist you with any questions or concerns you may have regarding the installation, maintenance and operation of your product.

Our technical support and services include:

Troubleshooting and diagnostic support

Installation and configuration assistance

Product customization

Software and hardware updates

Product maintenance and repair

24/7 phone support

We are committed to providing superior technical support and services for all of our products. If you have any questions or need assistance, please do not hesitate to contact us.

Packing and Shipping:

Packaging and Shipping Battery Modular Connectors

We package and ship Battery Modular Connectors in the following manner:

Connectors are placed in anti-static bags and securely taped.

The bags are then placed in a corrugated cardboard box.

The box is secured with strong tape.

The box is then labeled with the weight and shipping address.

The box is placed with other packages for shipping.

FAQ:

Q1: What is the brand-name of the Battery Modular-Connectors?

A1: The brand name of the Battery Modular Connectors is TLC.

Q2: What is the model number of the Battery Modular Connectors?

A2: The model number of the Battery Modular Connectors is G and BMC.

Q3: Where is the Battery Modular Connectors from?

A3: The Battery Modular Connectors are from China.

Q4: What is the certification of the Battery Modular Connectors?

A4: The Battery Modular Connectors have CE certification.

Q5: What is the minimum order quantity of the Battery Modular Connectors?

A5: The minimum order quantity of the Battery Modular Connectors is 500 pieces.
