

Silver Mechanical Cable Lugs MOQ 1000 Pieces 35-70mm² Copper Tube Lug

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: TLC
- Certification: UL, CUL, CE
- Model Number: TLK
- Minimum Order Quantity: 1000
- Price: USD
- Packaging Details: PE bag, Carton
- Delivery Time: 5-30 working days
- Payment Terms: T/T
- Supply Ability: 300-800K pcs per month

Product Specification

- Packaging: Bag, Box, Carton
- Application: Electrical Connections
- Material: Copper
- Product Name: Mechanical Cable Lugs
- MOQ: 1000 Pieces
- Current Rating: High
- Color: Silver
- Type: Crimped
- Highlight: **Silver Mechanical Cable Lugs,
35mm² Copper Tube Lug,
70mm² Copper Tube Lug**

Product Description:

Lugs terminals are an essential part of electrical systems. They provide an integral role in connecting wires or cables to various electrical devices or equipment.

Lugs are small metal connectors, usually crimped or soldered onto the ends of wires. Their function is for a secure and reliable connection to different terminals, and due to their various sizes and shapes, they can be used for different wire gauges and terminal types.

Features:

Lugs and terminals are essential in ensuring a strong and stable electrical connection. This connection is vital for the correct transmission of power or signals between machines. Installing these components correctly can prevent loose connections which can lead to poor performance, oven heating or even complete electrical breakdown.

Damage to these components can cause them to work incorrectly, such as loose connections, providing incorrect signals and even complete failure. As a result, it is essential that lugs and terminals are properly connected and consistently monitored.

Therefore, it is clear that to ensure the smooth, efficient transfer of power or signals throughout any electrical system, lugs and terminals need to be of a high quality, maintained correctly and inspected regularly.

Technical Parameters:

Property	Value
Application	Electrical Connections
Current Rating	High
Surface Treatment	Tin Plated
Color	Silver
Packaging	Bag, Box, Carton
Product Name	Mechanical Cable Lugs
Material	Copper
Type	Crimped
MOQ	1000 Pieces

Applications:

Lugs terminals are an integral part of electrical systems, which are meant to provide reliable and secure connections between electrical devices, equipment, and wiring or cables.

Correct and proper installation is of great significance, as it helps to attain optimal electrical performance and a secure environment.

Support and Services:

Technical Support & Service for Mechanical Cable Lugs

We are committed to providing the best technical support and service when it comes to our Mechanical Cable Lugs. Our highly trained technical support team is available to answer any questions and provide assistance with the installation, operation and maintenance of our products.

We provide comprehensive technical documentation to ensure that you are well-informed and can safely use our products. Our documents include installation instructions, user manuals and troubleshooting guides. We also provide ongoing technical support and service, so you can be sure that your product will always be in top working condition.

If you ever encounter any issues with your Mechanical Cable Lugs, don't hesitate to contact us. We are here to help you get the most out of your product and make sure that it continues to work as expected.

Packing and Shipping:

Mechanical Cable Lugs Packaging and Shipping:

We package and ship our Mechanical Cable Lugs using a combination of boxes and bubble wrap for added protection. The boxes are made of corrugated cardboard and are designed to withstand the pressure of long-distance shipping. We also use foam inserts to cushion the lugs and protect them from any potential damage that may occur during transit.

We use a variety of shipping methods, depending on the size and weight of the order. For smaller orders, we use USPS Priority Mail or FedEx Ground. For larger orders, we use freight carriers such as UPS or DHL. We always make sure to use the most cost-effective shipping method so that we can keep our prices competitive.

FAQ:

Q1: What is the brand name of Mechanical Cable Lugs?

A1: The brand name of Mechanical Cable Lugs is TLC.

Q2: What is the model number of Mechanical Cable Lugs?

A2: The model number of Mechanical Cable Lugs is TLK.

Q3: Where is the origin of Mechanical Cable Lugs?

A3: The origin of Mechanical Cable Lugs is China.

Q4: What certifications does Mechanical Cable Lugs have?

A4: Mechanical Cable Lugs has UL, CUL, CE certifications.

Q5: What is the minimum order quantity for Mechanical Cable Lugs?

A5: The minimum order quantity for Mechanical Cable Lugs is 1000.
