

50-150mm² Copper Tube Terminals Lug In Carton Package TLC Cable Lug

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: TLC
- Certification: UL, CUL, CE
- Model Number: TYF, T
- Minimum Order Quantity: 1000
- Price: USD
- Packaging Details: bag, carton package
- Delivery Time: 5-30 working days
- Payment Terms: T/T
- Supply Ability: 800K pcs per month

Product Specification

- Package: Carton
- Application: Electrical Connections
- Material: Copper
- Product Name: Copper Tube Terminals
- Shape: Round
- Color: Silver
- Highlight: **150mm² Copper Tube Terminals,
50mm² Copper Tube Terminals,
TLC round type lugs**

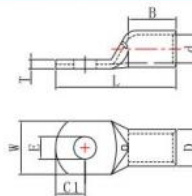

Product Description

Non-Insulated - Copper Lugs

TUBULAR LUGS TERMINALS

Material
Terminal Body: Copper
Plating: Tin

TLC TERMINALS INC.
Terminals

Product Description:

Lugs **terminals** are of great importance in electrical systems. They help create secure and trustworthy connections between wires or cables and electrical devices or equipment. To guarantee a steady working status as well as safety, installing lugs terminals precisely is an absolute must.

Features:

Lugs terminals are an essential part of electrical systems. They are essential for connecting wires or cables to any electrical device or equipment, and thus provide a crucial role.

Lugs are small metal connectors that are fixed onto the ends of wires. They are designed to ensure a stronger and reliable connection to all terminals. They come in all shapes and sizes that can accommodate different sizes of wires and terminals.

Applications:

Lugs and terminals are often used together to create a strong and stable electrical connection. This is paramount to ensure that electrical power and signals are both efficiently and properly transferred from device to device. Taking care to install the lugs and terminals correctly is essential; loose connections can lead to drastic issues such as decreased performance, overheating, and even dangerous electrical failures.

Support and Services:

Technical Support and Service for Copper Tube Terminals

We provide technical support and service for Copper Tube Terminals. Our team of experts can assist you in installing and maintaining Copper Tube Terminals. We offer technical support and service to ensure your Copper Tube Terminals are properly installed and functioning correctly.

Our technical support and service for Copper Tube Terminals includes:

Installation and maintenance assistance

Repair and replacement of damaged components

Troubleshooting and problem solving

Upgrades and product enhancements

We offer a full range of technical support and service for Copper Tube Terminals. If you have any questions or need assistance, please contact us and we will be happy to help.

Packing and Shipping:

Packaging and Shipping for Copper Tube Terminals

Copper tube terminals must be handled with care when being packaged and shipped. All terminals must be individually wrapped in protective material, such as bubble wrap, to prevent damage during transport. All terminals must be securely packaged in an appropriate box or container, ensuring that the terminals are not damaged in transit. The box or container should be clearly marked with the appropriate shipping information, including the origin and destination of the shipment, as well as the type of terminal being shipped. Finally, the box or container should be securely sealed to prevent tampering during shipping.

FAQ:

Q1: What is the Brand Name of Copper Tube Terminals?

A1: The Brand Name of Copper Tube Terminals is TLC.

Q2: What is the Model Number of Copper Tube Terminals?

A2: The Model Number of Copper Tube Terminals is TYF and T.

Q3: Where are Copper Tube Terminals from?

A3: Copper Tube Terminals are from China.

Q4: What is the Certification of Copper Tube Terminals?

A4: The Certification of Copper Tube Terminals are UL, CUL, CE.

Q5: How many Copper Tube Terminals in Minimum Order Quantity?

A5: The Minimum Order Quantity of Copper Tube Terminals is 1000.
