

8-35mm² 90D Copper Electrical Connections Tube Terminals With Tin Plated Cable Lug

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: TLC
- Certification: UL, CUL, CE
- Model Number: TYF, T
- Minimum Order Quantity: 1000
- Price: USD
- Packaging Details: bag, carton package
- Delivery Time: 5-30 working days
- Payment Terms: T/T
- Supply Ability: 800K pcs per month

Product Specification

- Material: Copper
- Package: Carton
- Product Name: Copper Tube Terminals
- Application: Electrical Connections
- Color: Silver
- Shape: Round
- Highlight: **Copper Cable Lug 35mm²,
Copper Cable Lug 90D,
5mm² Electrical Connection Terminals Tube**

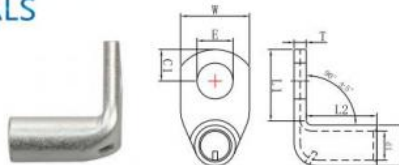

Non-Insulated - Copper Lugs

TUBULAR LUGS TERMINALS

Material
Terminal Body: Copper
Plating: Tin

Product Description:

Lugs terminals are essential components in electrical systems. They strive to create a secure and reliable connection between wires and cables and electrical devices. It is crucial to install these terminals accurately in order to optimize electrical performance and prioritize safety.

Features:

Lugs terminals are vital parts in electrical systems, and perform an important role in connecting wires or cables to various electrical devices and equipment. They are small metal connectors, attached to the ends of the wires either through crimping or soldering, to guarantee the reliable connection to the terminals.

Available in different sizes and forms, lugs are designed to match different wire gauges and terminal types.

Applications:

The combination of lugs and terminals guarantees **an effective and sturdy electrical connection**. This is of vital importance for the *streamlined conveyance* of electric power or signals between gadgets. Installing lugs and terminals in the correct way helps in avoiding slack connections, which can result in poor performance, overheating, or even electrical malfunctions.

Support and Services:

Technical Support & Services for Copper Tube Terminals

We provide technical support and services for our Copper Tube Terminals products.

Our technical support staff are experienced and knowledgeable in all aspects of product installation, troubleshooting and maintenance.

We can provide assistance with product selection, installation, and troubleshooting.

We offer installation services, including installation of the Copper Tube Terminals, testing and inspection of the product, and training in correct operational procedures.

We also offer after-sales services such as maintenance and repair services. Our team of trained technicians can provide expert advice on product selection, installation, maintenance and repairs.

We strive to provide the best possible customer service and technical support. If you have any questions or concerns about our Copper Tube Terminals products, please don't hesitate to contact us.

Packing and Shipping:

Packaging and Shipping for Copper Tube Terminals

Copper Tube Terminals are packaged in protective cardboard boxes, cushioned with soft foam and surrounded by a strong outer carton. The size of the box varies depending on the size of the product.

The shipping of Copper Tube Terminals is done by express delivery, using third-party carriers. All packages are tracked and insured to ensure the safe delivery of the product.

FAQ:

Q: What is the Brand Name of the Copper Tube Terminals?

A: The Brand Name is TLC.

Q: What is the Model Number of the Copper Tube Terminals?

A: The Model Number is TYF and T.

Q: Where is the Copper Tube Terminals made?

A: The Copper Tube Terminals is made in China.

Q: What certifications do the Copper Tube Terminals have?

A: The Copper Tube Terminals have UL, CUL and CE certifications.

Q: What is the minimum order quantity for the Copper Tube Terminals?

A: The minimum order quantity for the Copper Tube Terminals is 1000.
