

Cable Lug Crimping Tools 0.2-50mm² Gripping Range Insulated Lug Crimper

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: TLC
- Certification: CE
- Model Number: TLC, LY
- Minimum Order Quantity: 1
- Price: USD
- Packaging Details: Carton
- Delivery Time: 5 working days
- Payment Terms: EXW
- Supply Ability: 5K pcs per month

Product Specification

- Application: Crimping Lugs
- Gripping Range: 0.2-50mm²
- Crimping Range: 0.2-50mm²
- Name: Cable Lug Crimping Tools
- Jaw Type: Crimping
- Handle Type: Manual
- Highlight: **TLC Cable Lug Crimping Tools, Insulated Lug Crimper 50mm², Insulated Lug Crimper 0.2mm²**

Product Description

TLC2000A CRIMPING ALL INSULATED TERMINALS 	1. 22-16 AWG (1.25mm ²) 2. 16-14 AWG (2mm ²) 3. 12-10 AWG (5.5mm ²)	TLC2000B CRIMPING ALL DOUBLE CRIMP INSULATED RING/ SPADE/ PIN TERMINALS 	1. 22-16 AWG (1.25mm ²) 2. 16-14 AWG (2mm ²) 3. 12-10 AWG (5.5mm ²)
TLC2000C CRIMPING ALL SINGLE CRIMP INSULATED FEMALE/ MALE DISCONNECTORS 	1. 22-16 AWG (1.25mm ²) 2. 16-14 AWG (2mm ²) 3. 12-10 AWG (5.5mm ²)	TLC2000D-1332 CRIMPING NON-INSULATED TERMINALS 	1. 22-16 AWG (1.25mm ²) 2. 16-14 AWG (2mm ²) 3. 12-10 AWG (5.5mm ²) 4. 8 AWG (8mm ²)
TLC2000D-1306 CRIMPING OPEN BARREL TERMINALS 	1. 22-16 AWG (1.25mm ²) 2. 16-14 AWG (2mm ²) 3. 12-10 AWG (5.5mm ²)	TLC2000D-1516 CRIMPING COPPER TUBULAR LUGS 	1. 0.2-2.5 mm ² 2. 4-6 mm ² 3. 10 mm ² 4. 16 mm ²
TLC2000D-1317 CRIMPING RG58/ 59/62, BNC/ TNC COAX CONNECTORS (HEX 0.255, 0.213, 0.068) 		TLC2000E-3583 CRIMPING RJ-45 EIGHT-POSITION KEYED OR NON-KEYED MODULAR PLUGS (EXCLUDING AMP) 	
TLC2000F CRIMPING INSULATED FLAG TERMINALS 	1. 22-16 AWG (1.25mm ²) 2. 16-14 AWG (2mm ²)	TLC2000FA CRIMPING INSULATED AMP-TYPE FLAG TERMINALS 	1. 22-16 AWG (1.25mm ²) 2. 16-14 AWG (2mm ²)

Product Description:

Crimping tools are essential pieces of equipment for all industries that value secure and reliable connections. By using these tools, a tight and permanent bond between wires or cables and connectors can be created. This makes them the ideal tool for electrical, telecommunications, and automotive industries.

These tools allow precision and accuracy which is ideal for heavy-duty projects. Professional grade crimpers also feature pneumatic control that helps speed up the crimping process and increase efficiency. Professional crimpers are an integral part of any industry that deals with connecting wires or cables and require reliable connections.

Features:

Crimping tools are designed to be robust and reliable. They are usually constructed using high-quality materials such as steel or aluminum, guaranteeing maximum durability and excellent performance even in the most challenging conditions.

Crimping tools come in an assortment of different designs, suiting various purposes. Hand-held manual tools provide a great option for simpler tasks. Meanwhile, for more heavy-duty operations, hydraulic or pneumatic-powered tools might be a better choice.

Technical Parameters:

Crimping tools are indispensable tools for professionals who need to create durable wire connections in industries where secure and reliable connections are crucial. Their versatility and efficiency make them a vital part of production.

Crimping tools provide a secure fit that suits the demands of every industry. From telecommunications and automotive to aerospace and medical devices, these tools are designed to provide the greatest amount of strength and reliability. Whether permanently joining two wires together or making a quick connection between components, crimping tools are the ideal solution for high-quality wire connections. Crimping tools are defenders of product longevity, marketability and consumer safety. Professionals rely on their industry-approved precision and reliability to make sure that every connection is secure. These tools help maintain safety standards, no matter the

application or end-use.

Applications:

The primary goal behind the use of crimping tools is to ensure that connectors are firmly and securely attached to the wires. This is done by compressing the connector, thus making it much harder for the connection to suffer from mechanical and environmental stress factors. Additionally, such an action greatly reduces the potential of signal loss, power failure, or even fires due to poor electrical connection. Using crimping tools is fairly easy, as most of them are incorporated with a ratcheting system which serves to guarantee that proper compression is acquired without having to worry about over- or under-crimping. In comparison, many tools of this type come with interchangeable jaws and dies that are designed to fit into various sizes and types of connectors, providing added convenience to the user.

Support and Services:

Cable Lug Crimping Tools Technical Support and Service

We provide technical support and service for our Cable Lug Crimping Tools. If you experience any issues with your product, please contact us for assistance.

Technical Support

Our technical support team is available to answer any questions you may have about our Cable Lug Crimping Tools. We can provide advice on the best way to use the product, as well as troubleshooting and problem-solving assistance.

Warranty and Repair Service

Our Cable Lug Crimping Tools come with a standard one-year warranty. If your product develops a fault within this time, we offer a full repair service at no extra cost. We also provide after-sales service and spare parts for our products.

Packing and Shipping:

Packaging and Shipping

Cable Lug Crimping Tools are securely packaged in a cardboard box, bubble wrap, and foam padding to ensure safe delivery. Shipping is available via a variety of methods, including air, ground, and sea freight.

FAQ:

Q: What is the Brand Name of the Cable Lug Crimping Tools?

A: The Brand Name is TLC.

Q: What is the Model Number of the Cable Lug Crimping Tools?

A: The Model Number is TLC and LY.

Q: Where is the Cable Lug Crimping Tools manufactured?

A: The Cable Lug Crimping Tools is manufactured in China.

Q: Is the Cable Lug Crimping Tools CE certified?

A: Yes, the Cable Lug Crimping Tools is CE certified.

Q: What is the minimum order quantity of the Cable Lug Crimping Tools?

A: The minimum order quantity is 1.

Q: What is the price of the Cable Lug Crimping Tools?

A: The price is USD.

Q: How is the Cable Lug Crimping Tools packaged?

A: The Cable Lug Crimping Tools is packaged in a carton.

Q: How long does it take for the Cable Lug Crimping Tools to be delivered?

A: The Cable Lug Crimping Tools can be delivered within 5 working days.

Q: What are the payment terms for the Cable Lug Crimping Tools?

A: The payment terms are EXW.

Q: How many Cable Lug Crimping Tools can be supplied per month?

A: 5K pcs of Cable Lug Crimping Tools can be supplied per month.
