

Crimped Mechanical Cable Lugs And Durable 90D 16-70mm² Terminal Lug For Wire Connection

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: TLC
- Certification: UL, CUL, CE
- Model Number: TLK
- Minimum Order Quantity: 1000
- Price: USD
- Packaging Details: PE bag, Carton
- Delivery Time: 5-30 working days
- Payment Terms: T/T
- Supply Ability: 300-800K pcs per month

Product Specification

- Material: Copper
- MOQ: 1000 Pieces
- Type: Crimped
- Product Name: Mechanical Cable Lugs
- Color: Silver
- Surface Treatment: Tin Plated
- Current Rating: High
- Packaging: Bag, Box, Carton
- Highlight: **Crimped Mechanical Cable Lugs 90D,
Durable Mechanical Cable Lugs 70mm²,
wire connector lugs 70mm²**

Non- Insulated - Copper Lugs

TLK LUGS TERMINALS

Material
Terminal Body: Copper
Plating: Tin

Product Description:

Lugs terminals are a very important component for every electrical system. They create a strong and reliable connection between wires, cables, and various electrical devices or equipment.

Lugs are small metal connectors which can be either crimped or soldered on the ends of the wires. They come in vastly different sizes and shapes and are designed to perfectly fit the terminal type and wire gauge being used.

Features:

The **combination of lugs and terminals** ensures a strong and reliable connection between components. This is of utmost importance since it guarantees the proper exchange of electrical power and signals between devices. Moreover, if the lugs and terminals are installed correctly, accidental detaching will be prevented.

Contrastingly, an incorrectly installed lug or terminal may lead to undesirable outcomes, such as inefficient performance, unexpected temperature increases, or even complete failure. Therefore, it is paramount for electrical connections to be regularly maintained to ensure the safety and smooth running of equipment.

Technical Parameters:

Parameter	Value
Type	Crimped
Color	Silver
Surface Treatment	Tin Plated
Current Rating	High
Material	Copper
Packaging	Bag, Box, Carton
Application	Electrical Connections
Product Name	Mechanical Cable Lugs
MOQ	1000 Pieces

Applications:

Lugs terminals are essential elements of electrical systems. They make secure and reliable connections between electrical devices or equipment and wires or cables. It is important to install lugs terminals correctly for optimal electrical performance and safety. The installation of lugs terminals requires precision and experience. Before the installation process begins, it is important to check if the chosen lugs terminals meet the necessary technical requirements. Additionally, the conductor and lug must be inspected to ensure proper fit and that the conductor has been sufficiently stripped and is free from burrs. It is also important to verify the correct torque setting.

Support and Services:

Mechanical Cable Lugs

Our company provides technical support and services for Mechanical Cable Lugs. We are committed to providing excellent customer service and high-quality products that meet the needs of our customers.

We offer a wide range of Mechanical Cable Lugs, including:

Copper cable lugs

Aluminium cable lugs

Stainless steel cable lugs

Nickel-plated cable lugs

Our technical support team is available to provide assistance with product selection, installation, troubleshooting, and repair. We can also provide advice on the best type of cable lugs for specific applications. Our team is knowledgeable and experienced, and we are committed to providing excellent customer service.

We also provide a range of services including:

Installation services

Repair services

Troubleshooting services

Product testing services

If you have any questions or require any assistance with Mechanical Cable Lugs, please do not hesitate to contact us. We look forward to hearing from you.

Packing and Shipping:

Packaging and Shipping of Mechanical Cable Lugs

Mechanical cable lugs are shipped in packages containing individual pieces. The packages are labeled with the type of lug, quantity, material, and any other relevant information. The packages are then sealed for protection and security.

When shipping mechanical cable lugs, they are usually placed on a pallet. The pallet is then wrapped with shrink wrap or a plastic sheet to protect the lugs from damage. Once the pallet is wrapped, it is ready for shipment.

FAQ:

Q: What is the Brand Name of Mechanical Cable Lugs?

A: The Brand Name of Mechanical Cable Lugs is TLC.

Q: What is the Model Number of Mechanical Cable Lugs?

A: The Model Number of Mechanical Cable Lugs is TLK.

Q: Where is the Mechanical Cable Lugs produced?

A: The Mechanical Cable Lugs is produced in China.

Q: What certifications do Mechanical Cable Lugs have?

A: The Mechanical Cable Lugs have UL, CUL, CE certifications.

Q: What is the Minimum Order Quantity for Mechanical Cable Lugs?

A: The Minimum Order Quantity for Mechanical Cable Lugs is 1000 pcs.
