

5-35mm² 45D Electrical Connections With Silver Color Tin Plated Copper Tube Terminals Lug

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: TLC
- Certification: UL, CUL, CE
- Model Number: TYF, T
- Minimum Order Quantity: 1000
- Price: USD
- Packaging Details: bag, carton package
- Delivery Time: 5-30 working days
- Payment Terms: T/T
- Supply Ability: 800K pcs per month

Product Specification

- Package: Carton
- Material: Copper
- Color: Silver
- Shape: Round
- Product Name: Copper Tube Terminals
- Application: Electrical Connections
- Highlight: **35mm² copper tube lugs,**
45D Electrical Connections copper tube lugs,
Tin Plated copper terminal lug

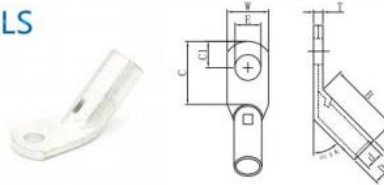

Non-Insulated - Copper Lugs

TUBULAR LUGS TERMINALS

Material
Terminal Body: Copper
Plating: Tin

TLC TERMINALS INC.
Terminals 137

Product Description:

Lugs terminals are essential components for electrical systems. They are used to provide secure and reliable connections between wires or cables and electrical devices or equipment. When used properly, they can ensure optimal electrical performance and safety. It is thus critical for lugs terminals to be installed correctly.

One should remember that lugs terminals are an integral part of any electrical system. Without them, the wires and cables would not be able to perform optimally or safely. Therefore, whenever dealing with lugs terminals, one should ensure that they are installed correctly, to ensure that no problems arise.

Features:

Lugs terminals are an integral element of electrical systems. They are indispensable for linking wires and cables to various electrical devices and apparatus.

Lugs are miniature metal connectors which can be either crimped or soldered onto the wire endings. Their purpose is to give a dependable and robust connection to the terminals. Being designed in a selection of sizes and shapes, lugs are fitted to varied wire gauges and terminal types.

Applications:

To ensure a secure and stable electrical connection, lugs and terminals should be combined. It is very essential for the smooth transfer of electricity or signals between devices.

To ensure proper performance and security, they must be correctly installed. Poor connection or defect installation can cause many potential dangers, such as inadequate performance, overheating, or even power malfunction.

Support and Services:

Technical Support and Service for Copper Tube Terminals

We provide comprehensive technical support and service for all our copper tube terminals. Our experienced technicians are available to answer your questions and provide guidance on installation, maintenance, troubleshooting, and repair. We can also provide custom solutions for your unique needs.

Our technical support team is available 24 hours a day, 7 days a week. We are committed to providing you with the best customer service and the highest quality products. We take pride in providing our customers with the highest level of service and support.

If you ever have any questions or need assistance, please do not hesitate to call our technical support team. We look forward to serving you.

Packing and Shipping:

Packaging and Shipping for Copper Tube Terminals

Copper tube terminals are packaged in sturdy cardboard boxes with dividers to prevent shifting during transit. Each box is labeled with the relevant details for quick identification. The boxes are then placed on pallets for shipment. The pallets are shrink-wrapped and labeled for easy identification.

We use reliable and well-known shipping companies to ensure that the copper tube terminals arrive in perfect condition. Due to their heavy weight, we only ship the copper tube terminals by ground.

FAQ:

Q: What is the brand name of the Copper Tube Terminals?

A: The brand name of the Copper Tube Terminals is TLC.

Q: What are the model number of the Copper Tube Terminals?

A: The model number of the Copper Tube Terminals are TYF and T.

Q: Where is the Copper Tube Terminals made?

A: The Copper Tube Terminals are made in China.

Q: What are the certifications of the Copper Tube Terminals?

A: The certifications of the Copper Tube Terminals are UL, CUL, and CE.

Q: What is the minimum order quantity for the Copper Tube Terminals?

A: The minimum order quantity for the Copper Tube Terminals is 1000.
