

Cable Lug Crimping Tools 0.2-50mm² Gripping Range For Crimping Lugs

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: TLC
- Certification: CE
- Model Number: TLC, LY
- Minimum Order Quantity: 1
- Price: USD
- Packaging Details: Carton
- Delivery Time: 5 working days
- Payment Terms: EXW
- Supply Ability: 5K pcs per month

Product Specification

- Jaw Type: Crimping
- Name: Cable Lug Crimping Tools
- Application: Crimping Lugs
- Gripping Range: 0.2-50mm²
- Handle Type: Manual
- Crimping Range: 0.2-50mm²
- Highlight: **0.2mm² Cable Lug Crimping Tools, 50mm² Cable Lug Crimping Tools, 50mm² crimping tool cable lug**

Product Description

TLC2000A CRIMPING ALL INSULATED TERMINALS 	1. 22-16 AWG (1.25mm ²) 2. 16-14 AWG (2mm ²) 3. 12-10 AWG (5.5mm ²)	TLC2000B CRIMPING ALL DOUBLE CRIMP INSULATED RING/ SPADE/ PIN TERMINALS 	1. 22-16 AWG (1.25mm ²) 2. 16-14 AWG (2mm ²) 3. 12-10 AWG (5.5mm ²)
TLC2000C CRIMPING ALL SINGLE CRIMP INSULATED FEMALE/ MALE DISCONNECTORS 	1. 22-16 AWG (1.25mm ²) 2. 16-14 AWG (2mm ²) 3. 12-10 AWG (5.5mm ²)	TLC2000D-1332 CRIMPING NON-INSULATED TERMINALS 	1. 22-16 AWG (1.25mm ²) 2. 16-14 AWG (2mm ²) 3. 12-10 AWG (5.5mm ²) 4. 8 AWG (8mm ²)
TLC2000D-1306 CRIMPING OPEN BARREL TERMINALS 	1. 22-16 AWG (1.25mm ²) 2. 16-14 AWG (2mm ²) 3. 12-10 AWG (5.5mm ²)	TLC2000D-1516 CRIMPING COPPER TUBULAR LUGS 	1. 0.2-2.5 mm ² 2. 4-6 mm ² 3. 10 mm ² 4. 16 mm ²
TLC2000D-1317 CRIMPING RG58/ 59/62, BNC/ TNC COAX CONNECTORS (HEX 0.255, 0.213, 0.068) 		TLC2000E-3583 CRIMPING RJ-45 EIGHT-POSITION KEYED OR NON-KEYED MODULAR PLUGS (EXCLUDING AMP) 	
TLC2000F CRIMPING INSULATED FLAG TERMINALS 	1. 22-16 AWG (1.25mm ²) 2. 16-14 AWG (2mm ²)	TLC2000FA CRIMPING INSULATED AMP-TYPE FLAG TERMINALS 	1. 22-16 AWG (1.25mm ²) 2. 16-14 AWG (2mm ²)

Product Description:

Crimping tools are essential for a wide range of industries that need durable and reliable connections. These tools are specifically made to ensure that cables and wires have strong and lasting bonds with the connectors. Crimping tools are widely used in the automotive industry, electrical sector as well as the telecommunications industry.

Crimping tools are used in a wide variety of applications, such as assembling and connecting cables to circuits or components, attaching terminals to conductors, as well as affixing connectors to cables and wires. They can be used in both general and industrial applications, allowing the user to achieve a secure connection.

In order to achieve a reliable connection, crimping tools are used to create a secure and reliable connection. The tool creates an electrical connection between the wire and the connector by squeezing the metal part at the end of the wire together. This makes the connection more reliable and prevents it from coming undone in the future.

Features:

Crimping Tools

Crimping tools are an essential piece of equipment for many machinery and electrical tasks. They are designed to secure cables, wires and other connectors effectively and efficiently.

Crimping tools are typically made with high-quality material such as steel or aluminum, providing incredible strength and durability. This ensures that these tools are able to withstand whatever demanding tasks you put them through, delivering powerful and reliable performance every time.

They come in a variety of designs, ranging from hand-held manual to hydraulic or pneumatic tools, allowing you the perfect fit for any job. For heavier tasks or long-term projects, the stronger and more powerful models can provide reliable results.

Technical Parameters:

Crimping tools are essential for industries that require secure and reliable connections. Their versatility and efficiency make them the go-to choice for professionals in need of strong and durable wire connections.

Crimping tools are highly reliable and help ensure that the connections made are strong enough to stand the test of time. They are perfect for applications such as automotive wiring, electrical wiring, and much more. Their popularity stems from their ability to create reliable and secure connections, as well as their ease of use. With a simple squeeze of the crimping tool, professional can quickly and easily complete the desired work. The convenience of crimping tools is something that cannot be overstated, and their ability to make connections quickly is unmatched. No matter the size of the project, crimping tools remain a great choice.

Applications:

The primary function of crimping tools is to apply pressure on a connector so it securely fastens to the wire, developing a stable and dependable electrical connection. The pressure applied must be solid to battle against mechanical vibrating, movements of the environment, and other probable factors.

These tools are convenient and straightforward to utilize. The majority of them are constructed with a ratchet system, which provides the right volume of compression and prevents over- or under- squeezing the connectors. Also, many are equipped with different types and sizes of interchangeable dies and jaws which permits users to work with various types and sizes of connectors.

Support and Services:

Cable Lug Crimping Tools Technical Support and Services

We provide technical support and services for our Cable Lug Crimping Tools products. Our team of experts is available to answer your questions and resolve any issues you may have.

We understand that the use of our tools is vital for your projects, and we strive to provide the best possible customer service. We are committed to helping you troubleshoot any problems and address any concerns that you may have.

We offer a variety of services, including:

Troubleshooting assistance

Product installation and set-up

Product maintenance

Replacement parts

Software updates

If you need assistance with your Cable Lug Crimping Tools, please contact us today.

Packing and Shipping:

Packaging and Shipping

Cable Lug Crimping Tools are packaged in heavy-duty boxes that ensure that the tools are safe from any potential damage or scratches during the shipping process. We also use bubble wrap and other protective materials to further protect the tools.

We use reliable carriers such as FedEx, UPS, and DHL to ship Cable Lug Crimping Tools. All shipments are tracked and insured for full coverage in case of any damage during transit.

FAQ:

Q1: What is the Brand Name of Cable Lug Crimping Tools?

A1: The Brand Name of Cable Lug Crimping Tools is TLC.

Q2: What is the Model Number of Cable Lug Crimping Tools?

A2: The Model Number of Cable Lug Crimping Tools is TLC, LY.

Q3: Where is the Place of Origin for Cable Lug Crimping Tools?

A3: The Place of Origin for Cable Lug Crimping Tools is China.

Q4: What is the Certification for Cable Lug Crimping Tools?

A4: The Certification for Cable Lug Crimping Tools is CE.

Q5: What is the Minimum Order Quantity for Cable Lug Crimping Tools?

A5: The Minimum Order Quantity for Cable Lug Crimping Tools is 1.
