

Cable Lugs For Electrical Connections 80-100mm² Non Insulated Terminal Lug

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: TLC
- Certification: UL, CUL, CE
- Model Number: RNB
- Minimum Order Quantity: 1000
- Price: USD
- Packaging Details: bag, carton package
- Delivery Time: 5-30 working days
- Payment Terms: T/T
- Supply Ability: 1KK pcs per month

Product Specification

- Shape: Ring
- Temperature Range: -40°C To +105°C
- Package: Bag, Carton, Reel
- Finish: Tin Plated
- Material: Copper
- Product Name: Ring Cable Lugs
- Type: Cable Lugs
- Color: Silver
- Highlight: **Non Insulated Electrical Cable Lugs 80mm², terminal lugs ring type 80mm², 100mm² terminal lugs ring type**

Product Description

Product Description:

Non-Insulated Terminals:

Non-Insulated Terminals are a type of electrical connector used to join or attach wires together, typically made of metal and with no insulation to speak of.

These connectors are widely used in a variety of industries including electronics, automotive, and household appliances. Commonly made of conductive materials such as copper and aluminium, these connectors offer excellent conductive properties and a reliable connection.

They come in several shapes and sizes such as round, flat, U-shaped, and F-shaped, designed to accommodate different connection requirements. Attachment is traditionally done either through bolted, crimped, or welded processes.

Non-Insulated with Brazed Seam

RING TERMINALS

Technical Parameters:

Property	Value
Package	Bag, Carton, Reel
Shape	Ring

Brand	TLC
Finish	Tin Plated
Type	Cable Lugs
Application	Electrical Connections
Product Name	Ring Cable Lugs/Ring Cord End Terminal/Cable Ring Lug
Material	Copper
Color	Silver
Temperature Range	-40°C To +105°C

Applications:

TLC's RNB Ring Cable Lugs are UL, CUL, CE certified and have a temperature range of -40°C to +105°C, making them ideal for electrical connections. The lugs come in a silver color and are shaped like a ring, making them a great choice for copper ring terminal, ring terminal lug and cable ring lug applications. With a minimum order quantity of 1000 and a delivery time of 5-30 working days, you can be sure that these lugs will be delivered to you in a timely manner and at an affordable price. Packaging is available in both bag and carton packages, and TLC is able to supply up to 1KK pcs per month. Payment terms are T/T.

Customization:

Ring Cable Lugs

Brand Name: **TLC**

Support and Services:

Technical Support & Service for Ring Cable Lugs

We provide technical support and service for our Ring Cable Lugs product. Our knowledgeable technicians are available to provide expert advice on installation, maintenance, and troubleshooting. Our customer service team can provide product information and answer any questions you may have.

Our technical support and service for Ring Cable Lugs includes:

- Installation advice and support
- Maintenance and troubleshooting advice
- Product information
- Customer service and support
- On-site troubleshooting and repairs

If you have any questions about our Ring Cable Lugs products or require technical support, please feel free to contact us. Our knowledgeable technicians are here to help!

Packing and Shipping:

Ring Cable Lugs are packaged and shipped in accordance with the following requirements:

- Each unit must be packaged in a sealed, waterproof container.
- The container must be clearly labeled with the product name, quantity, size, and any other relevant information.
- The container must also be clearly labeled with the shipping address and contact information.
- The container must be secured with strong tape to prevent damage during transit.
- The product must be placed on a pallet to prevent shifting and damage during transport.
- The pallet must be secured with straps or shrink wrap to ensure stability.
- The container and pallet must be clearly labeled with the shipping address and contact information.
