

Red Ring Electrical Connections Cable Lugs Nylon Insulated Terminal Ring Type TLC 0.5-2.5mm²

Our Product Introduction

for more products please visit us on cableslugs.com

Basic Information

- Place of Origin: China
- Brand Name: TLC
- Certification: UL, CUL, CE
- Model Number: RNY, RNYB, DRNYB, RD
- Minimum Order Quantity: 1000
- Price: USD
- Packaging Details: bag, carton package
- Delivery Time: 5-30 working days
- Payment Terms: T/T
- Supply Ability: 1KK pcs per month

Product Specification

- Material: Copper
- Shape: Ring
- Application: Electrical Connections
- Finish: Tin Plated
- Color: Red, Yellow, Blue,
- Package: Bag, Carton, Reel
- Type: Ring Terminals
- Brand: TLC
- Highlight: tlc Ring Electrical Connections Cable Lugs,
0.5mm² Electrical Connections Cable Lugs tlc,
round crimp terminal 2.5mm² tlc

Product Description:

Insulated Ring Terminals

Insulated Ring Terminals are electrical connectors which are created to securely connect wires to a terminal block or stud. These terminals are characterized by having a circular shape, with a hole in the center of them.

The main advantage of these kinds of terminals is that they can easily be attached to a screw or bolt, making the connection process very efficient and reliable.

Furthermore, insulated ring terminals provide higher levels of protection against electric shock, making them an important component for safety.

Features:

To keep electrical devices safe and sound, these terminals are equipped with insulation materials such as PVC or nylon. It helps protect wires from possible damage, safeguarding them from short circuits. Likewise, insulation provides electrical insulation so as to ensure a secure and reliable connection.

Applications:

Insulated ring terminals are widely used in many different areas. In the automotive and marine industries, they are used as a connection between different electrical systems, ensuring all components are properly linked. In industrial and electrical projects, they also provide a reliable connection for wires and other components.

What makes insulated ring terminals so versatile is their availability in different sizes. This makes them ideal for a variety of applications, as they can serve wires and studs of different gauges and sizes.

Support and Services:

Ring Cable Lugs Technical Support and Service

At Ring Cable Lugs, we are committed to providing our customers with the best possible service. We offer technical support and customer service for all our products, from the initial purchase and setup to ongoing usage and maintenance.

Our technical support team is available via phone, email, or live chat. Our team of experienced engineers will be able to troubleshoot any issues you may have with our products. Additionally, we can provide advice on installation and usage, as well as answer any other questions you may have.

We also offer a comprehensive customer service program. This includes detailed product information, warranty information, and return policies. Additionally, we offer a customer rewards program, which allows you to earn discounts and promotional offers for purchasing our products.

At Ring Cable Lugs, we are dedicated to providing our customers with the best possible service and technical support. If you have any questions or concerns, please do not hesitate to contact us.

Packing and Shipping:

Packaging and Shipping of Ring Cable Lugs:

The ring cable lugs will be shipped in individual boxes or in trays.

If shipped in boxes, they will be individually wrapped in polyethylene to ensure safety.

If shipped in trays, the lugs will be separated by dividers.

The boxes or trays will then be placed into larger shipping boxes.

The shipping boxes will be labeled with the product name, quantity, and destination.

The shipping boxes will be secured with packing tape.

FAQ:

Q: What is a Ring Cable Lugs?

A: Ring Cable Lugs are electrical cable connectors used to connect two or more electrical conductors.

Q: What Brand Name is the Ring Cable Lugs?

A: The Brand Name of the Ring Cable Lugs is TLC.

Q: What are the Model Numbers of the Ring Cable Lugs?

A: The Model Numbers of the Ring Cable Lugs are RNY, RNYB, DRNYB, RD.

Q: Where are the Ring Cable Lugs made?

A: The Ring Cable Lugs are made in China.

Q: What Certifications does the Ring Cable Lugs have?

A: The Ring Cable Lugs are certified by UL, CUL, and CE.

Q: How many Ring Cable Lugs are needed for a minimum order?

A: A minimum order for Ring Cable Lugs is 1000 pieces.
