

50-120mm² 90D Silver Round Copper Tube Lug Terminals Lug For Industrial Connection

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: TLC
- Certification: UL, CUL, CE
- Model Number: TYF, T
- Minimum Order Quantity: 1000
- Price: USD
- Packaging Details: bag, carton package
- Delivery Time: 5-30 working days
- Payment Terms: T/T
- Supply Ability: 800K pcs per month

Product Specification

- Material: Copper
- Package: Carton
- Application: Electrical Connections
- Color: Silver
- Product Name: Copper Tube Terminals
- Shape: Round
- Highlight: **Copper Tube Terminals 90D,
90D Industrial Copper Tube Lug,
Industrial Copper Tube LugS 90D**

Non-Insulated - Copper Lugs

TUBULAR LUGS TERMINALS

Material
Terminal Body: Copper
Plating: Tin

Product Description:

Lugs terminals are essential components in electrical systems. They offer secure and reliable connections between wires or cables and electrical devices or equipment. These connections are very important as they are needed to ensure optimal electrical performance. The installation of lugs terminals is critical for making sure the wiring set up is safe. If these terminations are installed incorrectly, it can lead to potential issues that can present a significant danger to people and equipment. Therefore, it is vital for those working with electrical systems to understand the necessity of having secure and well-fitted terminations that provide reliable electrical connections.

Features:

Lugs terminals are an important part of electrical systems. They're essential in connecting wires or cables to electrical devices and equipment.

Lugs are metal connectors that are applied to the ends of wires. The crimping or soldering process is used to make them and ensure a strong and dependable connection to their terminals. There's an array of different lug types and sizes available, suiting different wire gauges and terminal needs.

Applications:

The combination of lugs and terminals guarantees a secure and reliable electrical connection. It is significant for the successful transmission of electricity, or communication signs, between two components. By proper installation of lugs and terminals, it could prevent loose connections, thus, it will avoid the issues, such as improper performance, overheat, and failures in electric current.

Support and Services:

Copper Tube Terminals provide a comprehensive technical support and service package to ensure the best performance and satisfaction. Our technical support staff are available to answer any questions you may have regarding our products, and provide helpful advice and solutions to any issues you may encounter with your Copper Tube Terminals. Our customer service representatives are available to help you with any orders, provide additional information or answer any other questions you may have.

At Copper Tube Terminals, we take pride in our products and strive to ensure the best customer experience possible. We provide support before, during, and after your purchase, to ensure you get the best out of your Copper Tube Terminals. We will provide technical support, troubleshooting assistance, and ongoing maintenance services to ensure that your Copper Tube Terminals are working properly and delivering maximum performance.

Packing and Shipping:

Copper Tube Terminals Packaging and Shipping:

The copper tube terminals are individually packaged in plastic bags, then placed in cardboard boxes or wooden crates for shipping. The boxes are labeled with product information and marked with the shipment's destination. To ensure the safety of the copper tube terminals during shipping, the boxes are secured with shrink wrap and/or packing tape.

FAQ:

Q1: What is the brand name of the Copper Tube Terminals?

A1: The brand name of the Copper Tube Terminals is TLC.

Q2: What is the model number of the Copper Tube Terminals?

A2: The model number of the Copper Tube Terminals is TYF and T.

Q3: Where are the Copper Tube Terminals from?

A3: The Copper Tube Terminals are from China.

Q4: What certifications do the Copper Tube Terminals have?

A4: The Copper Tube Terminals have UL, CUL and CE certifications.

Q5: What is the minimum order quantity for the Copper Tube Terminals?

A5: The minimum order quantity for the Copper Tube Terminals is 1000 pieces.
