

1000 Pieces Copper Tube Crimp Lugs For B2B 45D 10-95mm² Battery Cable Lugs

Our Product Introduction

for more products please visit us on cableslugs.com

Basic Information

- Place of Origin: China
- Brand Name: TLC
- Model Number: SC
- Minimum Order Quantity: 1000pcs
- Price: USD
- Packaging Details: Carton Package
- Delivery Time: 5-30 days
- Payment Terms: T/T
- Supply Ability: 1KK pcs per month

Product Specification

- Temperature Rating: High
- Surface Treatment: Tin Plated
- Product Name: Mechanical Cable Lugs
- MOQ: 1000 Pieces
- Type: Crimped
- Current Rating: High
- Packaging: Bag, Box, Carton
- Material: Copper
- Highlight: **Copper Tube Crimp Lugs 45D, 95mm² Copper Tube Crimp Lugs, 10mm² Battery Cable Lugs**

Non- Insulated - Copper Lugs

Product Description:

A strong and stable electrical connection between devices can be ensured with the combination of lugs and cables. The connectivity plays an important role in the efficient transfer of electrical power or signals. If the cables and lugs are not properly installed, poor performance, overheating, even electrical failures can occur.

Cable lugs are essential elements of electrical systems, which offer reliable and secure connections between wires, cables, and electrical devices and equipment. To ensure optimal electrical performance and safety, a correct and precise installation of cables and terminal lugs is required.

Applications:

Mechanical cable lugs are ideal for making electrical connections in a variety of applications. TLC's SC model of mechanical cable lugs are made of high-quality materials for optimal performance and durability. The surface is treated with a tin plating for enhanced corrosion resistance. These lugs can tolerate high temperatures and guarantee a reliable connection. This type of tube lug can be connected with a crimping tool and can be used for a variety of applications such as railway, communication, and energy systems. TLC's SC model of mechanical cable lugs are designed for efficient and reliable performance.

The SC model of mechanical cable lugs offer a reliable connection solution for a variety of applications. These lugs can be used in railway, communication, and energy systems. The lugs provide a strong and secure connection and can be easily connected with a

crimping tool. The lugs are also resistant to corrosion and can tolerate high temperatures. TLC's SC model of mechanical cable lugs are designed to provide a reliable connection solution for a variety of applications.

TLC's SC model of mechanical cable lugs are the ideal solution for a variety of applications. These lugs are made of high-quality materials for optimal performance and durability. The surface is treated with a tin plating for enhanced corrosion resistance. The lugs are designed to provide a reliable connection and are easy to install with a crimping tool. These lugs are resistant to corrosion and can tolerate high temperatures. TLC's SC model of mechanical cable lugs are the perfect solution for a variety of applications.

Customization:

Customized Service for Mechanical Cable Lugs

We offer customized service for mechanical cable lugs, with the following product attributes:

Brand Name: TLC

Model Number: SC

Place of Origin: China

Current Rating: High

Temperature Rating: High

Application: Electrical Connections

Surface Treatment: Tin Plated

Product Name: Mechanical Cable Lugs

Our mechanical cable lugs are perfect for tube lug, terminal lug, tube lug crimping, cable lug crimping and other applications. With high current and temperature ratings, our lugs are sure to provide a reliable electrical connection.

Support and Services:

Mechanical Cable Lugs Technical Support and Service

We are committed to providing our customers with the best possible customer service and technical support for our mechanical cable lugs. Our team of experts is available to provide you with advice and guidance throughout the entire process — from product selection to installation. We can help you make the right decision for your project and ensure that the installation is up to code.

Our technical support staff is available to answer your questions about our mechanical cable lugs, installation, and related products. We can provide you with detailed product information, installation instructions, and troubleshooting tips. We can also help you find the right parts for your application.

We offer a variety of services for our mechanical cable lugs, including installation, repairs, and maintenance. Our experienced technicians can diagnose and repair any issue you may be having with your mechanical cable lugs. We can also provide you with advice on how to maintain your lugs over time to ensure they last for years to come.

If you need assistance with our mechanical cable lugs, don't hesitate to reach out to us. Our team is always available to help you find the best solution for your project.

Packing and Shipping:

Mechanical Cable Lugs Packaging and Shipping:

All Mechanical Cable Lugs are individually packaged in plastic bags.

The product is then placed in a cardboard box for shipping.

The cardboard box is sealed with packing tape.

The package is shipped via USPS, UPS, or FedEx.

FAQ:

Q1: What is the brand name of Mechanical Cable Lugs?

A1: The brand name of Mechanical Cable Lugs is TLC.

Q2: What is the model number of Mechanical Cable Lugs?

A2: The model number of Mechanical Cable Lugs is SC.

Q3: Where are Mechanical Cable Lugs manufactured?

A3: Mechanical Cable Lugs are manufactured in China.

Q4: What are the features of Mechanical Cable Lugs?

A4: Mechanical Cable Lugs have features such as high conductivity, corrosion resistance, and anti-tampering.

Q5: Are Mechanical Cable Lugs easy to install?

A5: Yes, Mechanical Cable Lugs are easy to install and require no special tools.
