

Copper Tubular Lugs Two-holes Energy Storage Terminals Customized Non Insulated Copper Tube Terminals

Our Product Introduction

for more products please visit us on cableslugs.com

Basic Information

- Place of Origin: China
- Brand Name: TLC
- Certification: UL, cUL, CE
- Model Number: ST
- Minimum Order Quantity: 10-1000pcs
- Price: 0.01~5USD/PC
- Packaging Details: Carton size: 33X25X21CM
- Delivery Time: 5-20 working days
- Supply Ability: 600-800K pcs per month

Product Specification

- Material: T2 Purple Copper
- Special: OEM Service Offered
- Packing Detail: 100pcs A Bag
- Country Of Origin: ShenZhen City ,China
- Color: Silver
- Type: Tube Terminal
- Cable Size: 6mm²-625mm²
- Application: Industrial, Commercial, And Residential Use
- Port: ShenZhen Port
- Shape: Tubular
- Manufacturer: Various Manufacturers Available
- Insulation: Non-insulated
- Surface Treatment: Tinned
- Size: Various Sizes Available
- With Inspection Hole: No

Product Description:

High-quality Copper Tubular Lugs(Two-holes): The TLC Guarantee

Copper Tubular Lugs(Two-holes), often referred to as cord end ferrules, play an important role in making secure and reliable electrical connections. At TLC, we take pride in offering a wide range of cable terminals that are designed to meet the most demanding industry specifications.

Our expert team is committed to manufacturing premium-grade cable terminals that offer exceptional resistance to corrosion, temperature variations and other environmental stress. Our products have had an outstanding record of performance in a variety of industries, ranging from industrial machinery and home applications to automotive and defense components.

Whether it's a simple cord end ferrule or a special design, TLC guarantees the highest quality of product that is customized to meet your specific needs. We make sure your cord end terminals provide the reliable and safe connection your system requires.

Copper Tubular Lugs(Two-holes) Features:

Our Copper Tubular Lugs(Two-holes) are designed to provide superior performance and long-term reliability. Their durable construction and excellent electrical conductivity make them ideal for even the most demanding applications.

We offer a wide range of sizes and configurations, so you're sure to find the perfect Copper Tubular Lugs(Two-holes) for your specific wire gauge and terminal block.

Technical Parameters:

Copper Tubular Lugs(Two-holes) are designed for easy and quick installation, helping users to save time and effort in the wiring process. Moreover, they also offer a secure and vibration-resistant connection, which could effectively prevent the risk of loose or damaged wires.

Moreover, their using of these terminals could save the cost of labor since the wires do not need much manual processing. The Copper Tubular Lugs(Two-holes) are more user-friendly and could greatly reduce tedious manual work.

Applications:

At our professional manufacturing company, TLC, we take pride in offering a wide range of high-quality Copper Tubular Lugs(Two-holes) to cater to the diverse needs of our customers. We manufacture these terminals using premium-grade materials and engineer them to meet stringent industry standards.

Our Copper Tubular Lugs(Two-holes) are highly durable and offer excellent electrical conductivity - even in demanding applications. They are available in various sizes and configurations, to accommodate different wire gauges and terminal blocks.

Customization:

Customized Copper Tubular Lugs(Two-holes) from TLC

Brand Name: TLC

Model Number: ST

Place of Origin: China

Certification: UL, CUL, CE

Minimum Order Quantity: 100pcs

Price: USD

Packaging Details: Bag and Carton package

Delivery Time: 5-20 working days

Payment Terms: T/T

Supply Ability: 600K - 800K pcs per month

Package Content: 1000-50pcs

Connector Type: Lugs Terminals

Wire Range: 6(12-10)- 625(250/300) mm² (A.W.G)

Shape: Tubular

Coating: Tin

Agency Approvals:

IATF16949

ISO9001-2015

Technical Support and Services:

Copper Tubular Lugs(Two-holes) Technical Support and Service

We provide comprehensive technical support and service for our Copper Tubular Lugs(Two-holes) products. Our team of experienced professionals is available to answer any questions you may have about installation, operation, and maintenance. We offer a dedicated customer service hotline to provide quick and efficient assistance. We also provide a range of online resources and documentation to help you get the most out of Copper Tubular Lugs(Two-holes) product. Our team is always available to provide technical advice and support.

We understand the importance of keeping your Copper Tubular Lugs(Two-holes) product up-to-date with the latest software and hardware updates. We provide regular software updates and notifications to ensure your product is always running optimally.

We strive to provide the best customer experience and satisfaction. If you have any questions or concerns, please don't hesitate to contact us.

Professional Packing and Shipping:

Packaging and Shipping of Copper Tubular Lugs(Two-holes).

Copper Tubular Lugs(Two-holes) are usually shipped in bulk, in protective packaging such as cardboard boxes and plastic bags. Depending on the product, it may also be necessary to use cushioning materials like bubble wrap or foam to ensure that the product arrives in its original condition. In addition, it is important to ensure that the product is properly labelled with all relevant information, such as product name, weight, dimensions, and manufacturer's details. This will help to ensure that the product is properly identified when it arrives at its destination.

When shipping Copper Tubular Lugs(Two-holes), it is important to take into account the size and weight of the product, as well as the distance it needs to travel. If necessary, it may be necessary to use a specialist shipping company to ensure that the product arrives safely and on time. It is also important to factor in any possible delays due to customs clearance or other unforeseen circumstances. It is advisable to use a tracked service to ensure that the product can be tracked at all times.
