

Silver Tin Plated Tube Lugs Durable Connections Tube Cable Lug Insulated Cable Lugs

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: TLC
- Certification: UL, CUL, CE
- Model Number: SC
- Minimum Order Quantity: 1000 pcs
- Price: USD
- Packaging Details: Carton
- Delivery Time: 5-30 days
- Payment Terms: T/T
- Supply Ability: 500 - 1000 K PCS

Product Specification

- Color: Silver
- Material: Copper
- Tin Plated: Yes
- Temperature Range: -40 ~+105
- Cable Range: 0.5-300mm²
- Direction: 90D
- Highlight: **Silver Tin Plated Tube Lugs 300mm², 105C Durable Connections Tube Cable Lug, Durable Insulated Cable Lugs 105C**

Product Description:

Lugs terminals are essential components in electrical systems. They play an important role of providing secure and reliable connections between wire or cables and electrical devices or equipment. It is crucial that they are installed correctly in order to ensure optimal electrical performance and safety.

Features:

Having a strong and stable electrical connection is very important for efficient transfer of electrical power or signals between devices. This can be accomplished by combining lugs and terminals together. When used properly, lugs and terminals help protect against loose connections, which can lead to many issues including decreased performance, overheating, and even electrical failures.

For anyone who relies upon having an uninterrupted flow of electrical power or signals, being aware of, and understanding, the importance of lugs and terminals is critical. Ensuring that these components have been installed securely and properly can go a long way in avoiding future problems.

Applications:

Lugs terminals are an important part of electrical systems. They have a critical job of joining wires or cables with different electrical hardware and appliances.

Lugs are small metallic connectors. Both crimping and soldering can be used to attach lugs to the tip of the wires. Different lug sizes and shapes are available to fit with distinct wire gauges and terminal varieties.

Support and Services:

Tubular Cable Lugs provide technical support and service that comes with the highest quality of customer care. Our staff is experienced and knowledgeable in all aspects of Tubular Cable Lugs and can provide advice on selection, installation, maintenance, and troubleshooting. We offer a comprehensive range of services such as on-site installation, training, and technical support. Our technicians are available 24/7 to answer any questions you may have and provide quick and reliable solutions. We also provide a warranty on all our products, so you can be sure that you are getting the highest quality service.

Packing and Shipping:

Tubular Cable Lugs Packaging and Shipping:

Tubular Cable Lugs are packaged in bags of 100 and/or boxes of 1,000. The packages are securely wrapped and sealed. Shipping is done via UPS, FedEx, and USPS. We also offer international shipping services.

FAQ:

Q: What is the brand name of Tubular Cable Lugs?

A: The brand name of Tubular Cable Lugs is TLC.

Q: What is the model of Tubular Cable Lugs?

A: The model of Tubular Cable Lugs is SC.

Q: Where is the place of origin of Tubular Cable Lugs?

A: The place of origin of Tubular Cable Lugs is China.

Q: What certifications are available for Tubular Cable Lugs?

A: The certifications for Tubular Cable Lugs are UL, CUL, and CE.

Q: What is the minimum order quantity for Tubular Cable Lugs?

A: The minimum order quantity for Tubular Cable Lugs is 1000 pcs.

Q: How much is the price of Tubular Cable Lugs?

A: The price of Tubular Cable Lugs is USD.

Q: What is the packaging of Tubular Cable Lugs?

A: The packaging of Tubular Cable Lugs is Carton.

Q: How long is the delivery time of Tubular Cable Lugs?

A: The delivery time of Tubular Cable Lugs is 5-30 days.

Q: What payment terms are available for Tubular Cable Lugs?

A: The payment terms for Tubular Cable Lugs are T/T.

Q: How many Tubular Cable Lugs can be supplied?

A: The maximum supply of Tubular Cable Lugs is 500-1000 K PCS.
