

185-625mm² Copper Mechanical Cable Lugs For Electrical Connections Crimping Lugs

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: TLC
- Certification: UL, CUL, CE
- Model Number: TLK
- Minimum Order Quantity: 1000
- Price: USD
- Packaging Details: PE bag, Carton
- Delivery Time: 5-30 working days
- Payment Terms: T/T
- Supply Ability: 300-800K pcs per month

Product Specification

- Material: Copper
- Surface Treatment: Tin Plated
- MOQ: 1000 Pieces
- Current Rating: High
- Product Name: Mechanical Cable Lugs
- Application: Electrical Connections
- Color: Silver
- Packaging: Bag, Box, Carton
- Highlight: **185-625mm² mechanical wire lugs,
Tin Plated Copper Mechanical Cable Lugs TLC,
185-625mm² Electrical Connections Crimping Lugs**

TLC TERMINALS INC.
Terminals

Product Description:

Lugs terminals are a fundamental part in electrical systems. They play an essential role in linking wires or cables to a myriad of electrical machines or tools.

Lugs can be regarded as diminutive metal connectors that secured by crimping or soldering on the edges of wires. They have been developed to furnish a robust and reliable communication to terminals. Different types of lugs are tailored to several sizes and shapes to develop suitable wire gauges and terminal components.

Features:

Lugs and terminals are essential components when it comes to having a reliable and long-lasting electrical connection. They help reinforce the strength and stability of the connection, making sure that the transfer of electrical power or signals between devices is uninterrupted.

Installing lugs and terminals properly is important to prevent any issues from arising. Loose connections can be caused due to their lack of proper installation, resulting in poor performance, overheating, or even electrical failures.

Technical Parameters:

Product Name	Technical Parameters
Mechanical Cable Lugs	Current Rating: High; MOQ: 1000 Pieces; Material: Copper; Application: Electrical Connections; Color: Silver; Type: Crimped; Packaging: Bag, Box, Carton; Surface Treatment: Tin Plated; Specialized in cable lug, tube lug, terminal lug, copper lug.

Applications:

Lugs terminals play an important role in electrical systems. They are able to create secure and reliable connections between wires, cables and other electrical devices or equipment. In order to get the most out of these components, we need to make sure that they are properly installed. This is vital for optimal electrical performance and safety.

Support and Services:

We provide technical support and service for Mechanical Cable Lugs.

We can provide a range of services to ensure that the product is maintained and operated correctly, such as:

Product Installation & Commissioning

On-site Troubleshooting & Repairs

Maintenance & Testing

Spare Parts & Accessories

Product Training & Upgrades

We also provide technical advice and support on installation, operation and maintenance of the product, as well as providing after-sales service.

Packing and Shipping:

Packaging and Shipping of Mechanical Cable Lugs

Mechanical cable lugs are packaged in plastic bags and then placed into cardboard boxes.

All of the cable lugs are then sealed in the boxes to ensure that the product is secure during the shipping process.

The boxes are then placed into shipping containers which are then sent out via an appropriate shipping service.

FAQ:

Q: What is the brand name of Mechanical Cable Lugs?

A: The brand name of Mechanical Cable Lugs is TLC.

Q: What is the model number of Mechanical Cable Lugs?

A: The model number of Mechanical Cable Lugs is TLK.

Q: Where is the Mechanical Cable Lugs manufactured?

A: The Mechanical Cable Lugs is manufactured in China.

Q: Are Mechanical Cable Lugs UL, CUL, and CE certified?

A: Yes, the Mechanical Cable Lugs are UL, CUL, and CE certified.

Q: What is the minimum order quantity of Mechanical Cable Lugs?

A: The minimum order quantity of Mechanical Cable Lugs is 1000.
