

# Nylon Insulated-Double Crimp Spade Terminals Insulated Copper Lugs Copper Terminal Lugs Energy Storage Terminals

## **Basic Information**

Place of Origin: ChinaBrand Name: TLC

Certification: UL, cUL, CE
Model Number: SNYD
Minimum Order Quantity: 1000pcs
Price: H29V32

Packaging Details: Carton size: 33X25X21CM
 Supply Ability: 600-800K pcs per month

## **Product Specification**

Material: Copper

Application: Industrial Connection
 Stud Size: 1/4 Inch - #10
 Shape: Spade
 Package Quantity: 100 Pieces
 Operating Temperature: -40°C To 105°C
 Durability: Excellent

Usage: Electrical Connector

Color: Red, Green, Yellow, Blue, Black

• Certifications: UL, CSA.cUL

Rohs Compliant:
 Yes

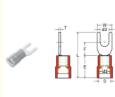

Highlight: Double Crimp Insulated Copper lugs,
 Energy storage Copper lugs,

Nylon Insulated Copper lugs

## **Product Description**

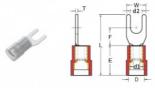

TLC was founded in 2011, is a high-tech enterprise focusing on the research & development, production, sales and service of copper terminals, with more than 210 employees. Providing one-stop services from product design, mold manufacturing, precision stamping, assembling, shipment to after-sales services. The factory has passed ISO9001, IATF16949 and other system certification; They are two manufacturing centers in Shenzhen and Wenzhou, annual produciton abilities are hundreds of millions of terminals.

#### Product Description:

High-quality Nylon Insulated-Double Crimp Lugs Terminals: The TLC Guarantee

Nylon Insulated-Double Crimp Lugs Terminals, often referred to as cord end ferrules, play an important role in making secure and reliable electrical connections. At TLC, we take pride in offering a wide range of cable terminals that are designed to meet the most demanding industry specifications.

Our expert team is committed to manufacturing premium-grade cable terminals that offer exceptional resistance to corrosion, temperature variations and other environmental stress. Our products have had an outstanding record of performance in a variety of industries, ranging from industrial machinery and home applications to automotive and defense components.

Whether it's a simple cord end ferrule or a special design, TLC guarantees the highest quality of product that is customized to meet your specific needs. We make sure your cord end terminals provide the reliable and safe connection your system requires.

Nylon Insulated-Double Crimp LugsTerminals Features:

Our Nylon Insulated-Double Crimp Lugs Terminals are designed to provide superior performance and long-term reliability. Their durable construction and excellent electrical conductivity make them ideal for even the most demanding applications.

We offer a wide range of sizes and configurations, so you're sure to find the perfect Nylon Insulated-Double Crimp Lugs Terminals for your specific wire gauge and terminal block.

Technical Parameters:

Nylon Insulated-Double Crimp Lugs Terminals are designed for easy and quick installation, helping users to save time and effort in the wiring process. Moreover, they also offer a secure and vibration-resistant connection, which could effectively prevent the risk of loose or damaged wires.

Moreover, their using of these terminals could save the cost of labor since the wires do not need much manual processing. The Nylon Insulated-Double Crimp Lugs Terminals are more user-friendly and could greatly reduce tedious manual work.

## Applications:

At our professional manufacturing company, TLC, we take pride in offering a wide range of high-quality Nylon Insulated-Double Crimp Lugs Terminals to cater to the diverse needs of our customers. We manufacture these terminals using premium-grade materials and engineer them to meet stringent industry standards.

Our Nylon Insulated-Double Crimp Lugs Terminals are highly durable and offer excellent electrical conductivity - even in demanding applications. They are available in various sizes and configurations, to accommodate different wire gauges and terminal blocks.

#### Customization details:

Customized Nylon Insulated-Double Crimp Lugs Terminals from TLC

Brand Name: TLC

Model Number: E, EN

Place of Origin: China	
Certification: UL, CUL, CE	
Minimum Order Quantity: 100pcs	
Price: USD	
Packaging Details: Bag and Carton package	
Delivery Time: 5-20 working days	
Payment Terms: T/T	
Supply Ability: 600K - 800K pcs per month	
Package Content: 1000-50pcs	
Connector Type: Lugs Terminals	
Nire Range: 6(12-10)- 625(250/300) mm <sup>2</sup> (A.W.G)	
Shape: Tubular	
Coating: Tin

### **Technical Support and Services:**

Nylon Insulated-Double Crimp Lugs Terminals Technical Support and Service

We provide comprehensive technical support and service for our Nylon Insulated-Double Crimp Lugs Terminals products. Our team of experienced professionals is available to answer any questions you may have about installation, operation, and maintenance. We offer a dedicated customer service hotline to provide quick and efficient assistance. We also provide a range of online resources and documentation to help you get the most out of Nylon Insulated-Double Crimp Lugs Terminals product. Our team is always available to provide technical advice and support.

We understand the importance of keeping your Nylon Insulated-Double Crimp Lugs Terminals product up-to-date with the latest software and hardware updates. We provide regular software updates and notifications to ensure your product is always running optimally. We strive to provide the best customer experience and satisfaction. If you have any questions or concerns, please don't hesitate to contact us.

#### **Professional Packing and Shipping:**

Packaging and Shipping of Nylon Insulated-Double Crimp Lugs Terminals.

Nylon Insulated-Double Crimp Lugs Terminals are usually shipped in bulk, in protective packaging such as cardboard boxes and plastic bags. Depending on the product, it may also be necessary to use cushioning materials like bubble wrap or foam to ensure that the product arrives in its original condition. In addition, it is important to ensure that the product is properly labelled with all relevant information, such as product name, weight, dimensions, and manufacturer's details. This will help to ensure that the product is properly identified when it arrives at its destination.

When shipping Nylon Insulated-Double Crimp Lugs Terminals, it is important to take into account the size and weight of the product, as well as the distance it needs to travel. If necessary, it may be necessary to use a specialist shipping company to ensure that the product arrives safely and on time. It is also important to factor in any possible delays due to customs clearance or other unforeseen circumstances. It is advisable to use a tracked service to ensure that the product can be tracked at all times.

#### FAQ:

Frequently Asked Questions:

- Q: What is the brand name of the Nylon Insulated-Double Crimp Lugs Terminals?
- A: The brand name of the Nylon Insulated-Double Crimp Lugs Terminals is TLC.
- Q: What is the model number of the Nylon Insulated-Double Crimp Lugs Terminals?
- A: The model number of the Nylon Insulated-Double Crimp Lugs Terminals is Nylon Insulated-Double Crimp.
- Q: Where is the place of origin of the Nylon Insulated-Double Crimp Lugs Terminals?
- $\label{eq:A:Theplace} \mbox{A: The place of origin of the Nylon Insulated-Double Crimp Lugs Terminals is China.}$
- Q: What certifications does the Nylon Insulated-Double Crimp Lugs Terminals have?
- $\hbox{A: The Nylon Insulated-Double Crimp Lugs Terminals have UL, CUL, and CE certifications.}$
- Q: What is the minimum order quantity of the Nylon Insulated-Double Crimp Lugs Terminals?
- A: The minimum order quantity of the Nylon Insulated-Double Crimp Lugs Terminals is 50-1000pcs.
