

50-120mm² 45D Silver Tin Plated Ring Terminal Lug For Electrical Connection Copper Cable Lug

Our Product Introduction

for more products please visit us on cableslugs.com

Basic Information

- Place of Origin: CHINA
- Brand Name: TLC
- Certification: UL, CUL, CE
- Model Number: RNB, DRNB, OT
- Minimum Order Quantity: 1000
- Price: USD
- Packaging Details: Carton
- Delivery Time: 5-30 working days
- Payment Terms: T/T
- Supply Ability: 1KK pcs per month

Product Specification

- Tin Plated: Yes
- Barrel Type: Closed
- Material: Copper
- Product Name: Non Insulated Ring Terminals
- Insulation: Non-Insulated
- RoHS Compliant: Yes
- Color: Silver
- Temperature Rating: 105°C
- Highlight: **TLC Tin Plated Ring Terminal Lug,
round wire terminals 45D tlc,
TLC 50mm² Silver round wire terminal**

Non-Insulated - Copper Lugs

TUBULAR LUGS TERMINALS

Material
Terminal Body: Copper
Plating: Tin

Product Description:

A **non-insulated terminal** is an electrical connector that serves to connect or secure a wire. Typically, these terminals are made of metal and lack an insulation function.

Due to its practical applications, non-insulated terminals are used in various industries. These include electrical and electronic equipment, automotive, household appliances, and others.

Features:

Non-insulated terminals are typically formed from materials with good conductive properties, such as copper and aluminum, enabling it to deliver secure and reliable electrical connections. A wide variety of designs are available for these terminals, with round, flat, U-shaped and F-shaped options that can ensure compatibility for different needs. In addition, these terminals may be affixed to the wire through means of bolting, crimping or welding.

Applications:

Non-insulated terminals can be useful for securing wires in certain applications. In electronics or the automotive industry, wires may require to remain affixed in a certain position to stop loosening or displacement. Non-insulated terminals typically offer a conveniently crafted design, allowing wires to be fixed in place the way they need to be. An illustration of this is the U-shaped terminal, which can cinch

wires in and also be attached to a device or appliance by using bolts or another fixture. This U-shaped terminal helps hold the wires in place, avoiding detachment.

Customization:

Product Name: Non Insulated Ring Terminals

Brand Name: TLC

Model Number: RNB, DRNB, OT

Place of Origin: CHINA

Certification: UL, CUL, CE

Material: Copper

Insulation: Non-Insulated

Tin Plated: Yes

Color: Silver

Minimum Order Quantity: 1000

Price: USD

Packaging Details: Carton

Delivery Time: 5-30 working days

Payment Terms: T/T

Supply Ability: 1KK pcs per month

Support and Services:

Non Insulated Ring Terminals are available with technical support and service from our expert team. Our technicians are available to answer any questions you have about the product and provide troubleshooting assistance. We also have a wide range of accessories to help you customize the product to fit your specific needs. If you need help with installation or have any other questions, please don't hesitate to contact us.

Packing and Shipping:

Packaging and Shipping

Non Insulated Ring Terminals are securely packaged in plastic bags. The bags are then placed in sturdy cardboard boxes for shipping. Each box is clearly labeled with the product name and quantity.

FAQ:

Q1: What is Non Insulated Ring Terminals?

A1: Non Insulated Ring Terminals is a type of electrical connector with a circular cross-section used for creating a durable electrical connection for wires.

Q2: What brand is Non Insulated Ring Terminals?

A2: The brand of Non Insulated Ring Terminals is TLC.

Q3: What is the model number of Non Insulated Ring Terminals?

A3: The model number of Non Insulated Ring Terminals is RNB, DRNB, OT.

Q4: Where is Non Insulated Ring Terminals manufactured?

A4: Non Insulated Ring Terminals is manufactured in China.

Q5: What certifications does Non Insulated Ring Terminals have?

A5: Non Insulated Ring Terminals is certified with UL, CUL, CE.
